1 Introduction

Important Preliminary Note :

With the introduction of the new method for submitting opinions via eBalloting, Annex III Organization will now have the option to submit both Comments and Opinions. It is important to note that Comments and Opinions are distinct entities: Opinions do not influence the ballot outcome, challenge consensus-building, or alter the national delegation principle. Therefore, a clear differentiation between Opinions and Comments exists.

This document is written for the following users (see the definition of the different roles in § 1.2.3):

- **Commenters, appointed by an Annex III Organization (ANEC, ECOS, ETUC and SBS)**

1.1 Main stages in the balloting process

The Balloting process and opinion mechanism and its follow up are characterized by the following main stages:

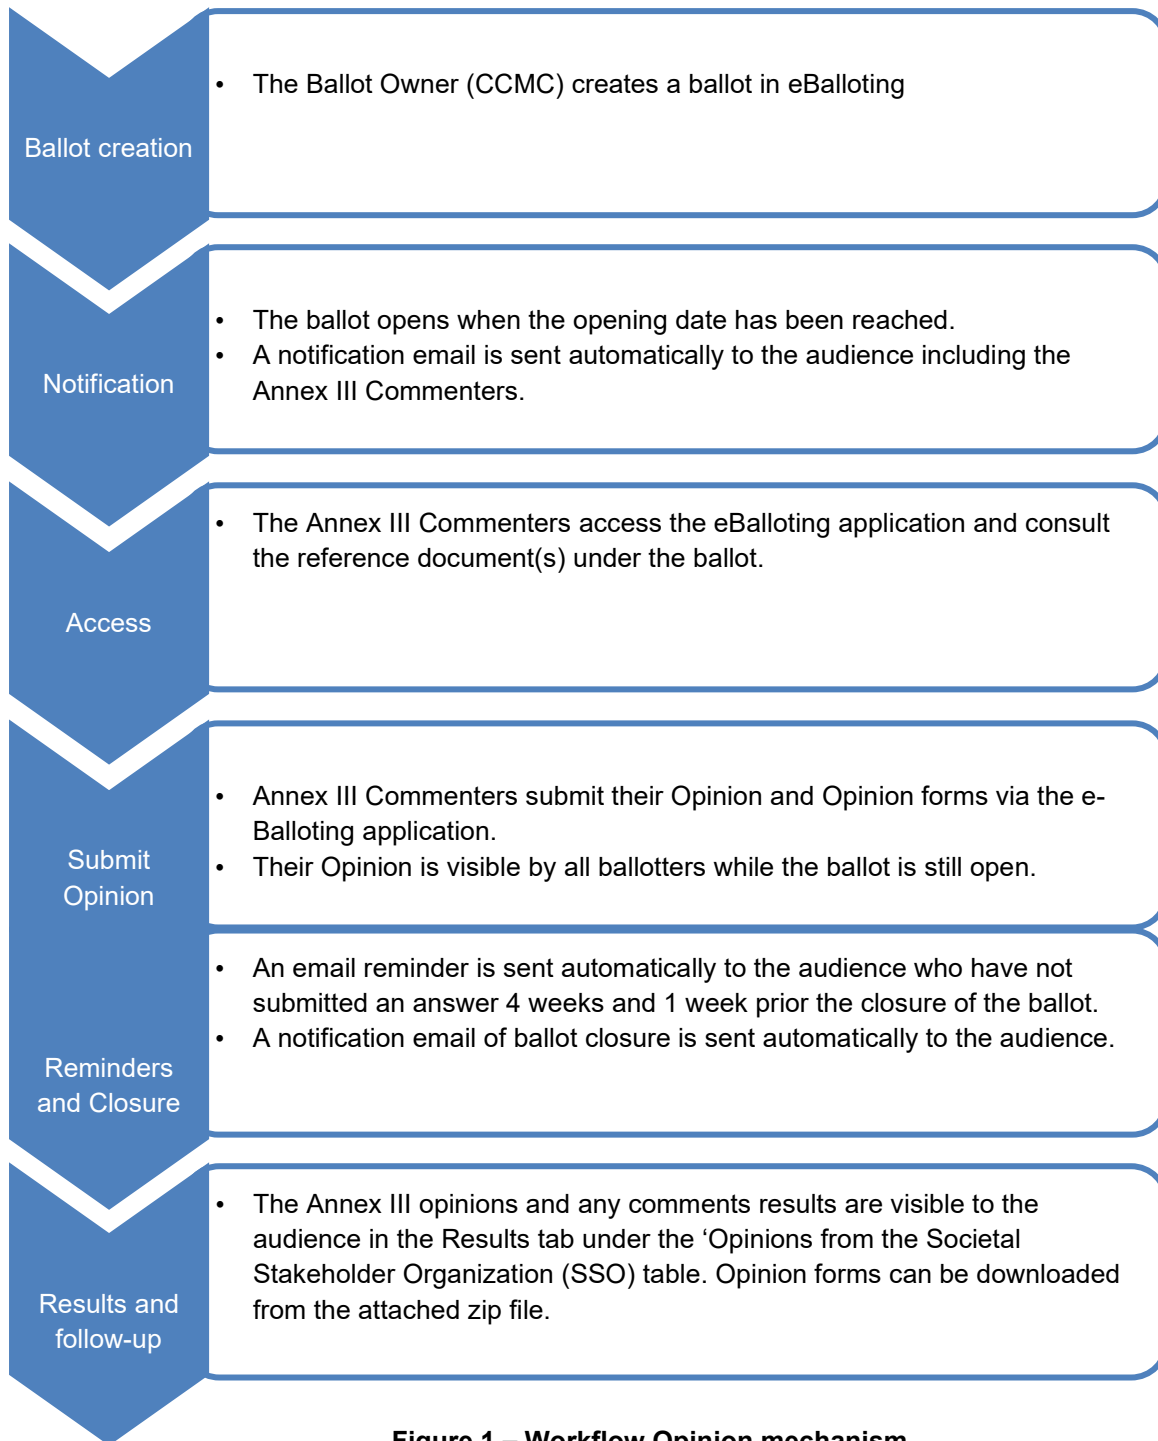

Figure 1 – Workflow Opinion mechanism

1.2 Principles of the Electronic Balloting application

1.2.1 Permissions to submit an opinion

Authorized to **submit an Opinion** (with the associated Opinion form when needed) are the Commenters appointed by an Annex III Organization (ANEC, ECOS, ETUC and SBS) in the Global Directory.

1.2.2 Management of users and their balloting roles

Users are registered in the **Global Directory** in the roles of Commenter. Users and their roles are registered and maintained by CCMC in the Global Directory.

Any changes in user data and role assignments relevant for balloting are immediately reflected in the access permissions for users of the balloting application.

In addition to the role of a Commenter, there are other balloting related roles defined in the application which are associated with certain permissions (see details in § 1.2.3).

1.2.3 General Balloting roles

On various screens and explanations some terms are used in relation to roles in the balloting process with which you may not be familiar. The table below gives an overview and explanations of these terms and relates it to business functions in CEN. Note that each role can be assumed by more than one individual for any given ballot.

Balloting roles	Role definitions	Permissions
Ballot Owner	Responsible to initiate and run the balloting process. This role is assumed by CCMC staff for the Enquiry.	Can create a ballot, has full access to the balloting environment. A BallotOwner has also the permission to register a vote, comment and opinion in the balloting application on behalf of a Voter or Commenter (if required).
Voter	Person representing a CEN member organization who is authorized to vote on behalf of his/her national member organization.	Can cast a vote on all Enquiries for committees to which he is assigned as Voter.
Commenter	Annex III Organizations, CEN Consultant, some external organizations (Associates, Affiliates, EC, EFTA,...) : are allowed to post comments on Reference Documents, but not to vote.	Commenter can submit a comment on a vote. Annex III Commenters can submit a comment on a vote and submit an opinion and add an Opinion form to the opinion.
Monitor	Person representing an organization who has read/viewer-access to all or a subset of the consultations relevant for its organization without having the permission to cast, modify or delete an answer/comment him/herself. This role may also be used to give access to the results when voting is closed.	In Open state, can see consultations and questions asked. When ballot is closed , can see all answers cast and final result..

2.4 Password forgotten

If you have forgotten your password, you can request a new password on the log-in page.

Click on the link **I have lost my password** next to the log-in fields and follow the instructions on the screen. Within the next few minutes you will receive an e-mail with a link to reset your password. Follow the link and click the Reset Password button. This will send you an email with a new temporary password. Follow the steps 1- 5 in the mail exactly to change your temporary password.

The screenshot shows the 'Sign in to Identity Manager' interface. It features a header with a lock icon and the text 'Sign in to Identity Manager'. Below the header are two input fields: 'Username' and 'Password'. To the right of these fields is a 'Help' section containing three links: 'I have lost my password...', 'I don't have an account yet...', and 'Contact helpdesk'. A red rectangular box highlights the 'I have lost my password...' link, and a red arrow points from the 'Password' field towards this link. Below the input fields is a checkbox with the text 'I have read the declaration, and I accept the conditions set forth therein'. At the bottom center is a 'Sign In' button.

3 User interface and navigation

3.1 Ballots - Navigation

The **Electronic balloting for CEN Enquiry** and **Electronic Balloting for CEN FV/UAP** display a list of all currently open ballots, which you are allowed to view depending on the roles assigned in the Global Directory.

Figure 11 – CEN Enquiry main page

All columns in the Home Screen are sortable. By clicking on the column heading the column will be sorted. Clicking a second time will reverse the sort.

Sorting applies to all ballots currently found (the number indicated on top of the ballot list) and not only to the ballots displayed on the current screen. Therefore, a ballot may disappear from the 20 listed due to the sorting.

The tabs at the top of the page have the following functions (from left to right):

Figure 12 – e-Balloting tabs

Tabs	Description
All open	Displays all the Ballots which are currently open and for which you can submit a comment and an Opinion.
New last 2 weeks	Displays all the Ballots which were opened within the last 2 weeks.
Closing in 2 weeks	Displays all the open Ballots which will close during the next 2 weeks.
Closed last 2 weeks	Shows all the Ballots which closed during the last 2 weeks. It allows access to the closed Ballots and the results and comments submitted by the voters

Tabs	Description
	and commenters.
Search	Opens the search screen which allows to search with user defined values (e.g. Ballots closed more than 2 weeks ago, search with a particular reference number, etc).

Figure 13 - Ballot tabs functions

3.2 Searching for Ballots

The Search screen allows you to enter parameters into the search fields to find the ballot which match those criteria. This functionality is useful for specific requests, e.g. to find all ballots of a particular committee, a ballot based on its reference number or ballots open or closed within time periods which are not covered by the predefined queries executed through the tabs.

To initiate a search, click on **Search** after having entered the search parameters. To clear the screen and remove search parameters, click on **Reset**.

Figure 14 – Search functionalities

The Search screen allows to enter or to select parameters in the following search fields:

Search Fields	Explanation/Function of the fields
Type	Enquiry If you selected the generic e-Balloting link in the Portal, and depending on your roles, you might see here other Balloting types (<i>Enquiry, FV, CIB, ...</i>)
Status	Ballot stages

Search Fields	Explanation/Function of the fields
Reference/Title	Ballot reference number or document title element. <i>Notes:</i> - A search by reference or title is a free text search that matches in any part of the ballot reference number or the title (e.g. searching for "smit" will match "smith"). - not case-sensitive.
Committee	Only those TCs to which your profile is registered will be displayed.
Opening date	Specifies that the date in the range between "From" and "To" is an opening date.
Closing date	Specifies that the date in the range between "From" and "To" is a closing date.
From	Range start date
To	Range end date

Figure 15 – Search parameters

3.3 Accessing closed ballots

Closed ballots can be accessed in two ways:

- Click on "**Closed last 2 weeks**" from the main screen, which will list all ballots which have been closed during this period.
- Open the **Search screen** and then choose from the field *Status* the value "**Closed**". Enter additional search values to further specify your query.

3.4 Viewing the details of a ballot

From the search screen, click on the ballot reference to open the ballot details screen :

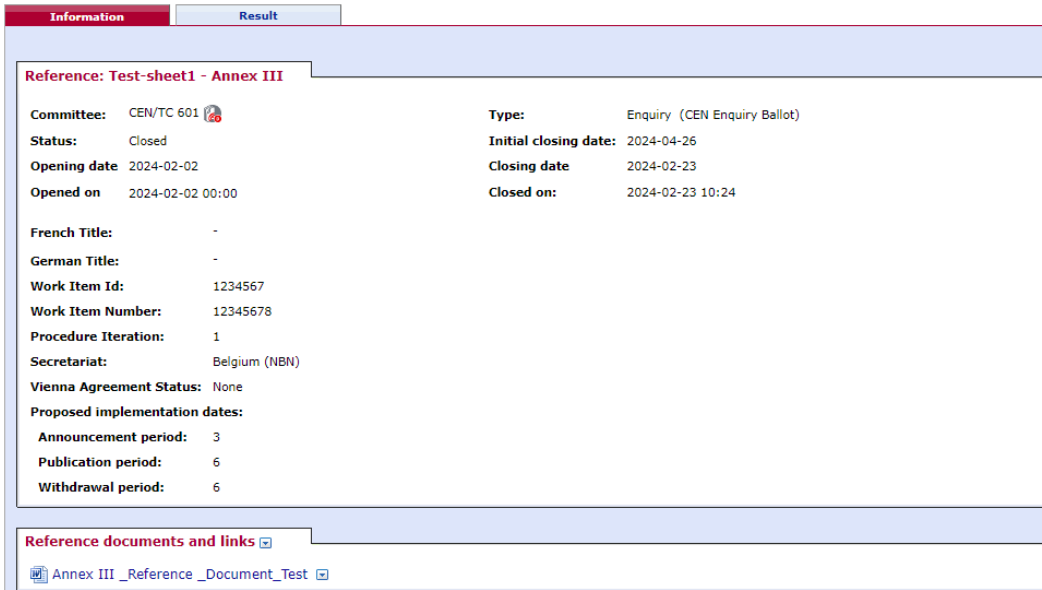

Figure 16 - Ballot Information screen

Tabs	Description
Information	Lists the ballot attributes, the reference documents or hyperlinks, questions and vote values.
Result	Lists the ballot results with the number of answers for each question and the comments received. Includes link to download the results.

6 Helpdesk information

For e-balloting application issues (e.g. technical issues, functionalities, support...), please contact our helpdesk at ISO: helpdeskcentc@iso.org.

Online documentation and support document on the use of the balloting application is available under **Help**.

The screenshot shows the 'Working Group Consultation' interface. At the top right, the user profile 'mbellier@cencenelec.eu' is displayed with the date '2023-07-10'. Below the profile are 'Tools' and 'Help' dropdown menus. An arrow points to the 'Help' menu, which is open, showing options: 'Help on Electronic Balloting' and 'About Electronic Balloting'. Below the navigation area, there are tabs for 'All open', 'New last 2 weeks', 'Closing in 2 weeks', 'Closed last 2 weeks', and 'Search'. A table lists consultations with columns: Type, Working Group, Reference, Consultation, Opening date, Closing date, and Role. The first row shows a consultation for 'CEN/TC 602/WG 01' with 4 answers, opened on 2023-02-28 and closed on 2023-07-23. The role is 'Consultation owner'.
