Harmonised standards supporting Construction Products Regulation (CPR) - from present to future 2019-12-04

Strong support to JIS Action 5

We take this opportunity to **thank the standardisation community** in the construction sector for such **committed support to JIS Action 5**.

We also would like to thank the CEN and CENELEC staff for leading and supporting this action since the very beginning of the Joint Initiative.

Knowence strongly believes that only a proactive **exchange of information** and discussions leading to **consensus across stakeholders** can improve the **role of standards** in support of European legislation for construction products.

Brussels, 04 December 2019

The voice of European SMEs in standardisation

JIS Action 5 – Testimonials

“For Small Business Standards, JIS Action 5 has meant that different stakeholders, that do not always speak or agree with each other, were brought to the same table to solve some central issues and by doing so helping standards writers in their day-to-day work. Many issues have been resolved but unfortunately some still need to be settled. Hopefully, the work on the remaining issues will be allowed to continue, even if in another format, so that we can harvest all the fruits of this action and enable a well-functioning and delivering European Standardisation System, which is crucial for Small and Medium-sized Enterprises.”

Thank you!

CEN-CENELEC BTWG 9

'Strategy for the construction sector'
(BSI)

▶ **Background**

- ▶ December 2015: CEN & CENELEC BTs set up CEN-CENELEC BT WG 9 'Strategy for the construction sector' with the task to prepare the CEN-CENELEC 'Position Paper on the implications of the Construction Products Regulation on the European Standardization System'
 - ▶ Allocating the convenorship to BSI and appointing Duncan King as Convenor
- ▶ August 2016, CEN and CENELEC BTs extended BT WG 9 lifetime due to the broadening of its scope and activities, in particular its contribution to JIS Action 5 'Aiding the implementation of the Construction Products Regulation (CPR) through standards'.
- ▶ November 2019, CEN and CENELEC BTs extended BT WG 9 lifetime to the end of 2020 and approved the revised terms of reference

CEN-CENELEC BT WG 9 'Strategy for the construction sector'

Objective:

- To provide ad-hoc support to CCMC and Technical Bodies in aspects related to the development of harmonised European Standards (hENs) in the framework of the Construction Products Regulation (CPR).
- Acts as an advisory and coordinating body on horizontal and strategic matters related to the CPR, under the CEN and CENELEC Technical Boards.

CEN-CENELEC BT WG 9 'Strategy for the construction sector'

Objective:

- Contributing to the European Commission 'Joint Initiative on Standardisation under the Single Market Strategy' Action 5 'Aiding the implementation of the CPR through standards' activities;
- Developing guidance for the elaboration of hENs under the CPR;

CEN-CENELEC BT WG 9 'Strategy for the construction sector'

Objective:

- To advise CEN and CENELEC Technical Boards (BTs) on the implications of the CPR regarding standardisation activities;
- To provide input into Standardization Requests (formerly called Mandates) having a horizontal outlook, on behalf of CCMC

Membership:

- ▶ Convenorship appointed by CEN and CENELEC BTs;
- ▶ Secretariat (provided by BSI);
- ▶ CEN-CENELEC Management (CCMC) staff;
- ▶ Members: the group will be open to CEN and CENELEC BT members, who shall act as a focal point for their respective national interests and ensure full consultation of stakeholders, with a limit of one representative per organization;

Membership:

- ▶ Nominated expert(s) from interested CEN and CENELEC Partner Organisations, as per [CEN-CENELEC Guide 25](#) *The concept of Partnership with European Organisations and other stakeholders*, with a limit of one representative per organization;
- ▶ At the Convenor's discretion, other persons with an interest in items under discussion may be invited to participate.

Activities:

- ▶ Communicating information on CEN and CENELEC standardisation activities and best practices under the CPR;
- ▶ Promoting deliverables of JIS Action 5;
- ▶ Reporting regularly on standardisation activities under the CPR to the CEN and CENELEC Technical Boards, at least once per year;
- ▶ Developing guidance to address specific aspects of the CPR, as and when is needed.

- ▶ CEN-CENELEC GUIDE
XXX Rules for the
drafting and
presentation of
candidate harmonized
product standards for
construction products

CEN-CENELEC GUIDE XX

**Guide for rules for the drafting
and presentation of candidate
harmonized product standards
for construction products**

Edition 1, 2020-XX

decided to adopt this CEN-CENELEC Guide XX through decisions BT
XXXX respectively.

- ▶ This Guide is intended for use by Technical Committees drafting candidate harmonized European standards in the Construction Sector.
- ▶ It offers guidance on interpreting the rules for the presentation of standards for construction products drafted following a standardization request issued in the framework of Regulation (EU) 305/2011 (CPR).

Assist CEN and CENELEC Technical Bodies by:

- ▶ Developing ad-hoc guidance to support Technical Committees
- ▶ Facilitating the resolution of non-citation of hENs
- ▶ Coordination of the CEN-CENELEC position for Standardization Request in the framework of the CPR
- ▶ Any other points coming from today
