

## Webinar of 2021-11-17

### CEN Webinar 'Website CEN-CENELEC'

#### Questions & Answers

1	Events older than one year cannot be searched, we needed to contact the Datacenter to get access to our workshop website from May 2020.	We have transferred all events and webinars of the old website up to one year before the launch of the new website (September 2021). Should you be looking for information on events older than September 2020, please get in touch with <a href="mailto:websites@cencenelec.eu">websites@cencenelec.eu</a>
2	Is it possible to view a total list of TC's in numerical order	The list of TC's is available in 'About CEN' > 'Technical Work' > 'CEN Technical Bodies' : <a href="#">List of CEN Technical Bodies</a>
3	Some useful links to blogs for the railway sector no longer work. I have found the new location of the blogs but it would have been useful if the old links pointed to the new location.	They were so many redirections needed that from a technical point of view the only possibility was to make a redirection to the new homepage website. Should you be looking for information on events please get in touch with <a href="mailto:websites@cencenelec.eu">websites@cencenelec.eu</a>
4	Are all published standards allocated ("have meta data") to WG's? In other words: could I find the responsible WG for an existing standard (or other doc, TR, TS)? or even the related (P)NWI?	Yes if the project or standard is allocated to a WG (some standards are allocated to the main TC or a SC).  This information can be found easily on Projex-Online.
5	Is there a link to the BOSS system on the new website?	The BOSS area is only accessible via the CEN expert area now.
6	Is Projex Online accessible for all those registered in Global Directory, or only for those with a CEN role (chair, convenor, expert, delegate, etc)?	Projex-Online is accessible for people having one of the following roles in the Global Directory: <ul style="list-style-type: none"> <li>• CEN Secretary</li> <li>• CEN Secretary Support Team</li> <li>• CEN Chairperson</li> <li>• CEN Chairperson Support Team</li> <li>• CEN Consultant</li> <li>• CEN Document Monitor</li> <li>• CEN Technical Programme Manager</li> <li>• CEN Twinned Secretary</li> <li>• CEN Vice-chairperson</li> <li>• CEN Committee Member</li> <li>• CEN Convenor</li> </ul>

		But access to NSB staff (who do not have one of these roles in Committees) are still managed manually by CCMC.
7	How can I access the CEN/BT and CENELEC/BT document areas (and other areas that I need to have access to)?	Please contact the responsible team in CCMC for CEN and CENELEC BTs: <a href="mailto:bt@cencenelec.eu">bt@cencenelec.eu</a> .  For access to other areas, please contact the secretary of the group.
