

European Committee for Standardization

CEN webinar on new website

17 November 2021

*We start at
09:30 CEST*

Get the most out of the webinar today

- ▶ All attendees are on mute
- ▶ Use the Q&A panel to submit your questions

A screenshot of a 'Question and Answer' panel. The panel has a dark header with the text 'Question and Answer' and window control icons. Below the header, a message from 'You' at '04:36 PM' asks 'When is the next session?'. Below the message is a large, empty text input field with the placeholder text 'Type your question here...'. At the bottom left of the input field is a checkbox labeled 'Send anonymously', and at the bottom right is a 'Send' button.

Background

- ▶ Rationale:
 - ▶ Change of technology
 - ▶ Split between 'general public' information and CEN and CENELEC 'expert' content
 - ▶ Increase the streamlining of information
 - ▶ Offer tailored and up-to-date content for our stakeholders
 - ▶ Modernise the look and feel
 - ▶ Improve user experience and offer a more responsive website

Common CA decisions of March 2019 to merge the 3 websites (CEN/CA 22/2019 and CENELEC/CA 152/33)

Public Website

Welcome to our new website

CEN and CENELEC are business catalysts in Europe, removing trade barriers for European industry and consumers in order to foster the European economy in global trade, improve the lives of European citizens and the environment.

CEN SECTORS

Construction

[Construction Products](#)

[Sustainability, Safety and Accessibility](#)

The construction sector is one of Europe's biggest industries, representing about 9% of the EU's GDP and 50.5% of Gross fixed Capital formation. It employs more than 18 million EU citizens and it is estimated that 26 million workers in the European Union depend, in one way or another, on the construction sector.

CEN and CENELEC, as two of the official European Standardization Organizations (ESOs), support the construction sector, developing harmonized European standards in support of the Construction Products Regulation ([Regulation EU 305/2011 - CPR](#)). European product standards, the core of the harmonized standards, are an essential tool for all stakeholders in the construction sector. They enhance the internal market allowing the free movement of construction products in the European Union and increase the competitiveness within this industry.

The construction sector is fundamental in ensuring that the ambitions of the Recovery Plan and the Green Deal embrace the opportunity for a stronger and more sustainable Europe moving forward: take for example the [Renovation Wave](#), issued last month by the European Commission which calls specifically for climate resilient building standards.

Given the importance and broad applicability of the construction sector, stakeholders working on standards in the field include manufacturers of construction products, national and European industry associations, laboratories and notified bodies, engineers, structural designers, the scientific community and the European Commission.

What's happening

CEN and CENELEC are undertaking a digital transformation program to support Goal 2 of our [Strategy 2030](#): **Our customers and stakeholders benefit from state-of-the-art digital solutions.** This will involve transforming the way we do things: from old processes, products, rules and systems 🦋 to new ones 🦋.

The program currently comprises several projects:

CEN FAQ

Can you adapt the visual identity when landing on a CEN or CENELEC page? (CA)

DONE

CEN or CENELEC logo visible instead of both

About CEN

The European Committee for Standardization is one of three European Standardization Organizations (together with CENELEC and ETSI) that have been officially recognized by the European Union and by the European Free Trade Association (EFTA) as being responsible for developing and defining voluntary standards at European level.

[CEN Communities](#) | [Technical Work](#) | [Structure and Governance](#)

CEN, the European Committee for Standardization, is an association that brings together the National Standardization Bodies of 34 European countries.

CEN provides a platform for the development of European Standards and other technical documents in relation to various kinds of products, materials, services and processes.

CEN supports standardization activities in relation to a wide range of fields and sectors including: air and space, chemicals, construction, consumer products, defence and security, energy, the environment, food and feed, health and safety, healthcare, ICT, machinery, materials, pressure equipment, services, smart living, transport and packaging.

CEN/CLC Guide 38:2021 (WI=JGJUID024)	Guide for multifuel stations	CEN/CLC/Guides	2021-10-27
CEN/CLC/TR 17602-70-23:2021	Space product assurance - Materials, mechanical parts and processes	CEN/CLC/JTC 5	2021-10-06

Q&A

What is the difference between search website and Search Standards

The image compares two web interfaces. The left interface is the CENELEC website, featuring a teal header with navigation links (About CEN, About CENELEC, Contact Us) and a search bar. A red circle highlights the 'MY EXPERT AREA' button with a user icon and a close 'X' icon. Below the header is a large blue banner with the CENELEC logo and text describing the organization. At the bottom, there are buttons for 'Members', 'Affiliates', 'CSBs', and 'European Partners'.

The right interface is the 'Search Standards' website, also with a teal header. A red circle highlights the 'Search Standards' button with a magnifying glass icon. Below the header is a search form with the following fields and options:

- SEARCH IN:** Checkboxes for CEN and CENELEC are selected.
- Keywords:** A text input field and a language selection dropdown (- select a language -).
- Committee:** Two dropdown menus for '- Committee -' and '- Committee title -'.
- Deliverable:** A dropdown menu for '- Deliverables -' and a text input field for 'Standard Reference'.
- Legal Framework:** A dropdown menu for '- Directives -'.
- Status:** Checkboxes for Preliminary Stage, Under Draft, Under Approval, Under Enquiry, Approved, and Published. A checkbox for 'Withdrawn' is also present.
- Standards Classification:** A dropdown menu for '- ICS -' and a dropdown menu for 'Activity sector' (- Activity Sectors -).

Q&A

Why isn't it possible to find a technical body (or a NC) using the search engine on the website? (EC)

Feasibility to be investigated.

In Search Standards, when exporting the results of a search, why don't we get all the displayed data in the Excel report? (EM)

The public website is meant for quick searches. All detailed results are available in Projex-Online for Members & Experts. However, we decided to further complete the XLS extract from the public web site with the following data:

Title (en), WI number, DOR, DAV, DOA, DOP, DOW

DONE

Where can I find a list of harmonized ENs? (EM)

Search by directive Available on Projex Online and public web site.

Q&A

Is it possible to find information on committee meetings on the public website? (EM)

Available on Projex Online (demo)

Q&A

Where can I find the CEN/TC's pages? (EM)

List of TCs available on public website

Detailed information and URL to the related eCommittee page available in Projex-Online.

In Search Standards, when using the Keywords field, the operator seems to be OR instead of AND. Can you change that? (EC)

The OR operator is selected by default.

The exact phrase can be searched by using double quotes (eg "x x").

The operator can be changed to AND by default if needed.

Q&A

Is it possible to display the withdrawn standards? (EM)

We have added this option in Search Standards

DONE

Q&A

Is there a dedicated place with the checklist, guiding materials, templates, etc. for drafting harmonized standards? (EM)

Available on the BOSS:

<https://boss.cen.eu/developingdeliverables/pages/en/pages/enf orojeu/>

Q&A

Where do I find the Internal Regulations? (EM)

In the BOSS, under Reference Material.

<https://boss.cen.eu/reference-material/refdocs/pages/>

European Committee for Standardization

Thank you for your participation!
